

VOLKSWAGEN FINANCIAL SERVICES

AKTIENGESELLSCHAFT

Reference

Mr. Eslam Sharaawy, born on 1996-12-12, began working for our company on 2024-07-01.

From 2024-07-01 to 2025-03-31 Mr. Sharaawy worked as an intern for the preparation of a thesis in our department Organizational unit Analytics & AI.

He primarily fulfilled the following activities:

- Conducting a study as part of his master's thesis, which dealt with "few-shot learning"
- Develop a model with the VWFS dataset using few-shot learning that can make accurate predictions with minimal training examples
- Develop a method that integrates both image and text features for price prediction

Mr. Sharaawy displayed initiative at all times and impressed us with his very keen motivation to work. He proved himself to be an assiduous employee with a good ability to work under pressure, and he also handled all assignments well, even under difficult working conditions. His intellectual grasp enabled him to quickly and successfully familiarize himself with new assignments. Mr. Sharaawy was in possession of solid specialist knowledge. The quality of Mr. Sharaawy's work was consistently good. The scope and pace of his work exceeded our expectations at all times. He could always completed all assignments to our full satisfaction.

Mr. Sharaawy was a responsible and universally respected employee who always had a good working relationship with his superiors and colleagues. Owing to his high level of professional performance and very good social skills, he quickly earned the respect and recognition of his colleagues. His good team skills and ability to cooperate with others were valued and recognized by all. His conduct towards superiors, colleagues, other employees and customers was exemplary.

Mr. Sharaawy is leaving our company today after completing his thesis. We very much regret his departure and would like to thank Mr. Sharaawy for making a good contribution to the department. We would like to wish him all the best and every success in his future career.

TO WHOM IT MAY CONCERN

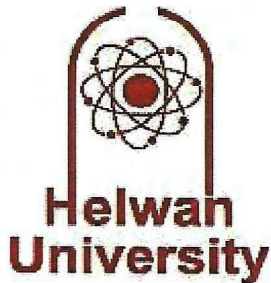

*This to certify that I have known engineer: **Mr. Eslam Nagah Sayed Mohamed** enrolment as an undergraduate student in the Mechanical Power Engineering Department of the Faculty of Engineering at Mattaria / Helwan University, Cairo/Egypt, who was graduated in summer 2019. He is a hard-working, intelligent, very cooperative with others and I rank him among my distinguished students, especially through my teaching courses of: 1-Renewable Energy Resources and 2-Energy conversion and Storage Systems, also the discussion of his Graduation Project.*

I recommend him, without any reservation, for any qualified engineering position, as well as for post-graduate study registration.

Professor, Mohamed Nabil METWALLY

31 July 2019

*Head of Renewable Energy Laboratory
Mechanical Power Department

TO WHOM IT MAY CONCERN

I wish to recommend **Eng. Eslam Nagah Sayed Mohamed Sharaawy** for your engineering master program; I have known **Eng. Eslam** for more than four years that he has been a student in our Department.

Eng. Eslam has been a brilliant student throughout his five years of graduation. His diligence and hard work have always been appreciated by various faculties. Being among the top 3% student of our department, he pursued a number of different aspects when it comes to his education. His studies have never been a deterrent for him to participate in extracurricular activities and he has shown his hidden talents in fields like photography and learning foreign languages.

It has been a wonderful experience having **Eng. Eslam** in my classes, as he is a hardworking and encouraging student. He actually works with other students to help and encourage them in their studies as well.

I believe wholeheartedly that he is going to be the perfect candidate for your master program and highly recommend him as so.

If you want any further information you can call me in my email.

Best regards,

Prof. Dr. Mahmoud Abdelwahab Shahein
